

The main gaming system advantage is the accumulation and automatic payout of three Mystery jackpots. The winning jackpot amount is transferred into the player's credit during the play on a gaming machine.

The current amounts and the possible ranges of jackpots winning values are displayed on the sign. As Extra Cash jackpot amount approaches its maximum value the winning probability essentially grows and... players' activity evidently rises up!

“Extra Cash” gaming system includes:

- Exclusive sign with plasma screen;
- Special server software designed to set up the jackpots parameters;
- Network equipment.

## JACKPOT HIT MODE

There is a special Jackpot Hit mode in every game within Extra Cash gaming system. When one of the three jackpots is hit, Extra Cash car shows up making its way across the machine screen, then a plate with the winning amount appears. The win is transferred directly into the player's credit.

1. Extra Cash car notifies about the jackpot hit.
2. The plate features the winning jackpot amount in cash.
3. The jackpot amount is converted into credits and summed up with the player's credit

## VIDEO FILMS

Vivid and colorful video films created with the help of the latest 3D animation and video technologies change each other on the plasma screen of the sign. Due to the stunning quality of sound and graphics Extra cash videos capture players' attention even in the largest gaming halls.

### Plasma screen features:

1. Adventures of Extra Cash Car video clips.
2. Promotional messages.
3. Jackpot hit video with congratulations.

## TOURNAMENT

### GAMING SYSTEM

**Tournament** the exciting way to get players competing against each other for top prizes. Tournament adds an extra level of competitive interest to gaming machines connected to an Octavian Extra Cash system on a local network. It's yet another way to add an extra-special attraction

#### HOW TOURNAMENT WORKS.

- An easy to use administrator application enables the operator to define the number of machines that will take part and other details such as entrance fee, start time and Tournament duration.
- Tournament details such as machine number, countdown and player's rank (which constantly changes as the contest progresses) are shown on each connected gaming machine's screen.
- Tournament information, such as countdown, the list of competing players, player credit values and ranking, and a bar chart visualization of player rankings, is also shown on the plasma display.
- The Tournament progresses through to semi-finals and a final. At the end of the final the winning player is applauded with a special congratulations message on the plasma display.

#### KEY BENEFITS

- Adds an extra level of competitive attraction and revenue opportunity.
- Captures interest by enabling slot players to compete against each other and against the clock.
- Integrated graphics and video on gaming machine screens and the ExtraCash plasma keep players involved and attract new customers.
- Amusing full-colour video animations run on plasma to generate and maintain interest.
- Easy to use administrator application for full control over all parameters.
